## **Information Under Right To Information Act, 2005**

### **Introduction (Basic Information)**

(a) This University is a dream of Hon'ble Jaiprakash Gaur ji Founder Chairman Jaypee Group who desired to create a "Centre of Excellence" in the field of technical education in this part of the country where there is a dearth of such facilities. The process of campus development is on and full fruits of his foresight and leadership will be visible in a few years from now, when this "Santiniketan" will be housing over 3000 students and a child who enters for schooling for the first time and can go out of the portals of this place with a doctoral degree in the chosen field of technical education.

(b) The Institute started functioning in the year 2003 with admission of 102 students to B. Tech courses in four branches of engineering viz. Chemical Engineering, Civil Engineering, Computer Science & Engineering and Electronics & Communication Engineering. The Institute has grown in terms of student strength and with many landmark activities. In 2006 a three year Diploma course in Building Materials and Cement Technology was added along with the start of a Research Centre for Cement. In 2007 the Master's degree course in Construction Management was added. From July 2011 diploma course in Thermal Power Plant Engineering is being added. Today there are 1794 students including 286 women students. All the admissions are based on AIEEE ranking. The collective efforts, toil and sweat by the faculty and students has helped us in realizing the goals set for the institute and converting our students into responsible citizens with competence and skill.
